ice skating rinks **mobile**

Our mobile ice rinks

We deliver success and fun on our mobile ice rink projects for decades.

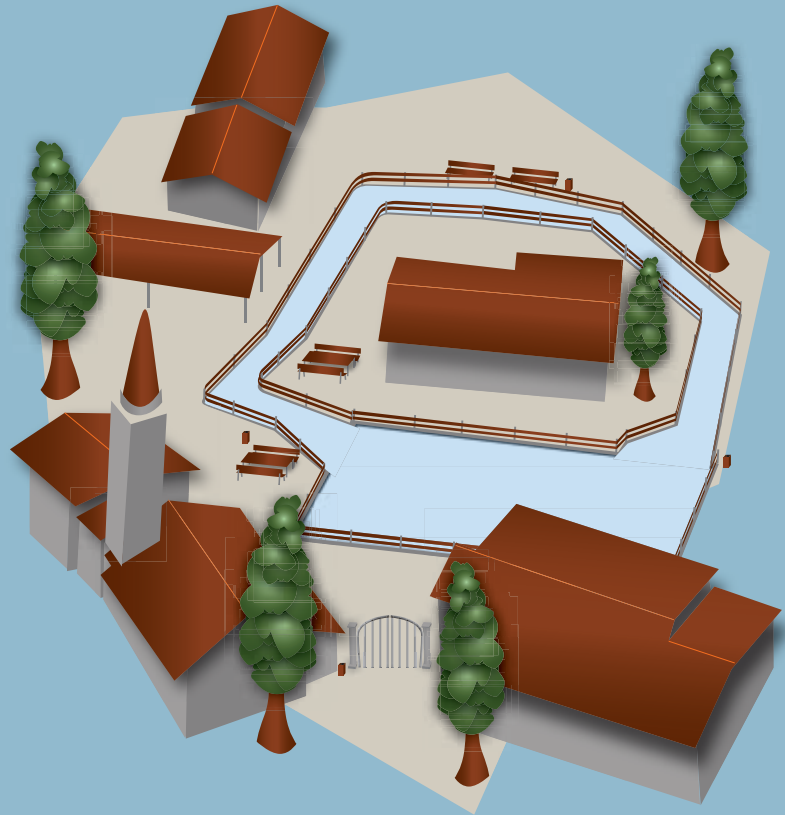

Our experience as well as our advanced leading technologies in this segment are a guarantee to our customers. In terms of visibility and earnings.

Why we are better

- time of installation is extremely extremely short (4 hours)
- fast icing (max. 24 hours)
- excellent ice quality – even in bad meteorological conditions
- very low electrical consumptions (until 40 % less than old systems)
- environmental friendly (we are ISO 14001 certified)
- assistance 24 hours – 7 days a week
- adaptable for every need (dimensions, shape)
- attractive pricing

ice paths...

- unique attraction
- spectacular and new
- more interest for skaters

ice skating rinks permanent

Permanent installations

We project and realize permanent ice rinks, offering advanced customer orientated solutions in terms of technologies, materials, quality and safety.

From a classic installation with concrete to innovative solutions like mobile systems, multipurpose systems with asphalt or turf, we are the specialist offering the perfect solution for every need.

intercom
DR. LEITNER

multipurpose...

we offer multipurpose systems for multipurpose usage. Whether it is in asphalt, turf or other surfaces, with this kind of solutions, the rink will be usable not only for ice skating but for all types of function.

The perfect solution

- for existing sport facilities which have the need of upgrading their actual sport center (even soccer, tennis or others)
- if you would realize a new multipurpose sport and event area

Advantages

- asphalt is ideal for inline hockey skateboard usage but also perfect for exhibitions, concerts and all other activities.
- turf or other synthetic surfaces are excellent surfaces for every kind of sport usage during the summer period and/or kids.
- the hole system is tested and ready for installation and immediate use
- Energy consumption is extremely low compared to old fashion systems
